Oceanside, CA 92057  
Phone: (760) 757-9179

Provides the following services: An in-person evaluation of a blind or visually-impaired client's current computer skills, specific needs and goals. We determine the best computer system, (hardware components, programs and adaptive software) for that individual, and provide a written proposal detailing the system's components, costs and the need for each. We procure all components and software and build the system. The computer system is delivered to the client's home or place of business. We set it up, install it and provide introductory demonstration of all components. We provide each client with trouble-shooting and technical support as they become accustomed to their new equipment. We provide specific and on-going training in-person or by phone in the use of the adaptive computer system including JAWs, ZoomText, Magic, Open Book, Windows, Microsoft Word, Internet Explorer, e-mail, etc.
